Отрасль: Software development. Web development. IT

Work Experience

Senior software developer
PITS ltd (IMH ltd)
August 2017 to Present

- Developed and maintain business intelligence system based on Oracle BI (creating DWH, repos, dashboards etc.)
- Improving company productivity by automatization most of the business processes, almost eliminated process involving manually collecting and transporting data from multiple sources to the one system
- Reducing decision-making time due to convenient and visual presentation of data (including by customizing the visual display of data, everyday reports via emails). By improving the ui / ux design, we have minimized the access time to critical data
- Today, the top management of the company can access critical data due to an ecosystem of business tools (mobile, desktop and web application) that extremely expands the ability to access data from anywhere in the world
